munch. The gamblers in the grain trading pits are able to come up with a brand new set of whys & wherefores just about instantaneously, and even a casual observer can see the way prices for cash or in futures are yo-yoing as they bet their money on whichever way they happen to be thinking at the moment.

With these United States obviously climbing slowly out of the Recession, there is hope that exports may pick up. However, most other export countries have surplus problems, too,

and those import countries are as broke as over and in no position to buy a lot more. As a matter of fact the news indicates we are alone in seeing the Recession subside and most of the other nations are as hard hit as ever.

Some pessimists figure this may be another Big Mistake on the part of our Govt., since expected higher commodity prices may further hinder exports and may also open the doors for our competitors to grab an even larger share of our export markets. Before the infamous Jimmy Carter grain embargo we had about a 70% grip on Soviet purchases. This dropped to closer to 20% and is believed to now stand at less than 30% of Soviet purchases.

Those countries we consider our Trade Partners and Allies were quick to cut our throats in exports, as they usually have been in the past. It does not require a long memory to recall how Australia and New Zealand told our cattle folks to take a running jump at ourselves when they complained about

meat imports. And, how Canada and Argentina and Australia hustled to fill the gaps left by that embargo.

Now comes word from Joseph Hallow of the North American Export Grain Assn., who allows as how Canada and Argentina are starting acreage expansion programs to fill any gaps our cut-back may generate. Several years ago the United States tried to work out an agreement with wheat exporting countries to stabilize prices worldwide. When we tawked to the Canadians they said "sure, go ahead and set a price. We will still stay a nickel under you." With friends like that, maybe we ought to cozy up to some of our enemies, at least you could expect what their actions and reactions were gonna be!

Ever thine,
The Editor.
P.S.: Uncle Dunk notes where our state and national Govts are gittin' ready to hit the Oil Boys and Gas Boys with some additional taxes, in addition to the new federal motor fuel tax. The Oil Boys are right along side the Bankers when it comes to lack of love on the part of the average citizens and

Sheep Industry Moves To Boxed Lamb To Boost Market (CONT. FROM PAGE 1A)

President of the American Sheep Producers Council, Cook, a South Dakota sheep producer, spoke to attendees at the Sheep Industry Conference in Mauston, Wisconsin, today.

After a three-year increase in sheep numbers, the American sheep industry experienced its first decline in 1982. This decline can be attributed to the high interest rates and poor profits which are forcing many producers to sell valuable breeding stock to finance farming operations, according to Cook. The producers have taken actions to combat their difficulties, reported the South Dakota sheep producer, by marketing lambs in an orderly manner and shipping them in optimum condition. Packers, also hit by the poor economy, have reorganized to either non-union or low union scales. They have also changed packing methods to increase the amount of boxed lamb sold. This, explained Cook, allows areas selling a large amount of certain carcass parts to buy only those parts, and increases the value of the entire carcass.

The American sheep industry's strategic plan, designed by representatives of the ASPP, Sheep Industry Development Program, Inc., National Wool Growers Association and the National Lamb Feeders Association, will help aid this recovery process as well. During his presentation, Cook also stated the emphasis at the ASPP is on increasing the opportunity for higher producer returns.

Quarter Horse Benefit Auction Brings \$85,450

As was expected, AQHA registration number 2,000,000 was the high-selling item at the Fifth Annual American Quarter Horse Foundation Benefit Auction, conducted in conjunction with the 44th Annual American Quarter Horse Association Convention, March 18-19 in Denver, Colorado.

Tio Kleberg and the King Ranch of Kingville, Texas, purchased the historic registration number for \$11,500 at the March 14 event. This purchase accounted for approximately one seventh of the \$85,450 the auction took in for Foundation programs. Proceeds will be divided between the American Quarter Horse Hall of Fame Building Fund and the American Junior Quarter Horse Association Scholarship Program.

Four previous foundation auctions have raised \$380,000 for Foundation projects. With the addition of this year's proceeds, total funding provided through the program totals \$465,380. Between six and seven hundred people attended the auction.

BEEFMASTER BREEDERS UNIVERSAL NEWS

JOHN NEWBURN

BBU Hires Two Field Representatives

John Newburn and Paul A. Wall have been added to the staff of Beefmaster Breeders Universal as field representatives, according to Gene Kuykendall, executive vice-president of the association.

Newburn, a native of Houston, Tex., returns to BBU from Pine Mountain, Ga., where he managed the Big Bear Santa Gertrudis Ranch for two years. He spent two years prior to these at Cuarenta Ranch, Muldoon, Tex. He was field representative for BBU from 1975 to 1978. Newburn is a graduate of West Texas State University where he received his B.S. degree in 1968.

Wall, a Webster, Fla. native, came to San Antonio, Tex., from Kernersville, N.C. He was employed by the American Polled Hereford Association where he served as area coordinator for six states since 1980. Prior to this position, he worked for C.H. Knight Livestock Company, purchasing cattle on auction markets throughout Florida and Georgia. He has also taught Vocational Agriculture and sold farm and land real estate. He has a B.S.A. in Animal Science from the University of Georgia, Athens, Ga., and an A.S. from Abraham Baldwin Agricultural College, Tifton, Ga.

In their new capacity, Newburn and Wall join Charles Bradbury, director of field services, and field representative Robert Williams. All inspect and classify cattle in accordance with the standards set forth by the association. "Increased activity in Voluntary Classification, BBU Approved Sales, and inspection of cattle for the official Upgrading Program has made it necessary to expand our staff," says Kuykendall.

Next time your bull gives out before his job is half done,

By staying in the herd longer and working harder, Beefmaster bulls greatly lower production costs. In today's economy, it's nice to know the bull you turn out this breeding season will still be around next season... and the next. And that he's turning out sons and daughters just as durable.

Putting harder working, longer lasting cattle in your herd is simple. All you do is change the bull.

1982 IRA Contributions Are Still Acceptable

Eligible workers have until April 15, 1983, to make contributions to the Individual Retirement Arrangements (IRA's) and still claim them as deductions on their 1982 federal income tax return.

If they request an extension to file their return, they have until June 15, 1983, to make their contributions, the Internal Revenue Service says.

Eligible employees claiming IRA's on 1982 returns are allowed up to \$2,000 in contributions to an IRA. Since penalties are assessed for excessive contributions, taxpayers should calculate the amount of the contribution carefully.

Banks, insurance companies, credit unions, and other financial institutions can provide assistance in establishing and maintaining new IRA's and in calculating maximum contributions allowable on 1982 tax returns.

Detailed information on IRA's is contained in IRS Publication 590, "Tax Information on Individual Retirement Arrangements," available by using the order form in the tax package.

In return, the car dealer got a motorcycle that wouldn't run, a pontiac cavas truck cover, some Rhode Island Red hens, and \$250 in cash. "The man also offered a dog," according to the Ford agency.

Open to World Livestock Shows Set for Denver

Denver - An Open to the World Show for market livestock will be revived at the 1984 National Western Stock Show, Jan. 11-21, General Manager Charles Sylvester has announced.

Sylvester said the Open to the World Show will offer classes for steers, barrows and wethers and will be held in place of the junior market show which is now part of the new Junior Fall Classic scheduled for Oct. 1-5, 1983.

It marks the first time since 1972 that the National Western will offer an exclusive open Division Steer Show.

"The National Western, already regarded as the No. 1 livestock exhibition in the world, now has the opportunity to decide the top market animals in the livestock industry," Sylvester said.

The National Western guarantees a \$5,000 premium to the grand champion steer and \$1,000 to both the grand champion barrow and wether.

Sylvester added the National Western is seeking additional sponsors to double the premiums.

The open show will have no restrictions on age of exhibitor and will accept any purebred or crossbred entries. Steers will be divided into classes by hip height and barrows and lambs will be classified by weight.

It will not be a terminal show and nose prints are not required on steers.

The first nomination deadline for the Open to the World Show is Oct. 16. Additional nomination dates of Nov. 15 and Dec. 15 also must be met to remain qualified. The total nomination fee for steers is \$125, while barrows and wethers will be \$35 each.

Official entry standards, premiums and schedules for the open show will be detailed in the 1984 National Western premium book available in August.

For information regarding the Open to the World Show, contact Ken Hartman at the National Western Stock Show, 1888 East 48th Ave., Denver, CO 80216, or (303) 297-1189.

Best of Two Worlds Sale to Feature Imported Cattle

The E. O. Doggett Ranch will hold the "Best of Two Worlds" Sale Saturday, May 21 at the ranch. The ranch is located 17 miles south of Tyler. Sale time is set for 1:00 p.m.

The sale will feature the red Brahman of the United States and the imported pure Gir breed of Brazil. Headlining the sale will be the ranch's offering of the entire 1981 heifer crop. The heifers are sired by Everado 787, and many of these females are excellent prospects for top breeders in an embryo donor herd.

An extra special offering in the sale will be the first pure Gir heifer born from the ranch's embryo program. Also an interest in a pure Gir yearling heifer will be offered for sale. A few select Gir females have been held open, and breedings will be sold allowing the breeder to select the sire and dam.

"This is indeed a rare opportunity to combine the best of both worlds in any Brahman operation. The Everado 787 daughters are the most sought after red Brahman females, and the Gir influence will add a genetic boost to any herd," points out E. O. Doggett.

For more information, contact E. O. Doggett, Rt. 1, Bullard, TX 75767, or call (814) 825-9211.

Polled Hereford Perspective '83 Coming in June

You won't want to miss "Perspective '83" - four big events planned to give Polled Hereford breeders a clear, up-dated overview of their place in the industry. Putting the APHA Sire Summary, marketing programs and the future of Polled Herefords in perspective, these programs will feature specially tailored programs geared to the Polled Hereford breed.

"Perspective '83" will set the stage June 8 in Clay Center, Neb., where breeders will get a first-hand look at the U.S. Meat Animal Research Polled Hereford cross cows. From there, Perspective moves to Dunwoody Farm, Far Hills, N.J., on June 11; to Middle Tennessee State University, Murfreesboro, Tenn., on June 17; and finally to the Oregon State Fairgrounds in Salem, Ore., on June 26.

The "Marketing in Perspective" segment will include planned salesmanship, the philosophies of effective marketing, planning advertising programs, ad design and placement and livestock photography. "Polled Hereford Future in Perspective" will explore where the breed fits in the beef industry, the important role Polled Herefords play in crossbreeding systems and plotting a course for the breed. "Sire Summary in Perspective" will stress the impact this tool has had and will have on the breed. This discussion will cover the use and interpretation of the Sire Summary, as well as how to employ this valuable tool in building pedigrees and planning breeding programs.

This event should be a "must attend" for the calendar of every Polled Hereford breeder and interested cattleman. The American Polled Hereford Association and co-sponsoring associations have put together a top-notch program that promises to improve your perspective on Polled Herefords and the beef cattle industry.

When you stretch the truth, watch out for the snafuck.

A "little ear" on feeder calves has become an important marketing factor in recent years.

Some feeders are demanding that their order buyers select calves with some Brahman in their genetic make-up.

We think one of the best tools available to put a "little ear" on your feeder calves is to turn out a Beefmaster bull.

Contact the N.B.A. for a list of breeders who have breeding age Beefmaster bulls for sale.

AVOID CHANGING WELL LEATHERS FOR MANY YEARS

Perma-cups are molded urethane, more wear resistant than nylon. Perma-cups will outlast leathers 10 to 1. Their tapered design allows only 1/8" wear. Instead of 5/8" of a leather. Much less friction for easier pumping extends cylinder life greatly. Perma-cups must be used in a good or new cylinder, as they do not swell. Install Urethane Perma-cups, Urethane Check-balls, and Urethane Pump Rod-guides, and don't pull that well for many years. Thousands are in wells that have not been re-leathered in 9 years! All are available in standard cylinder and pipe sizes. Write or call for our catalog. We ship same day order is received. This is our 33rd year serving ranchers.

McDougle/Roberts Sale To Feature Audio-Visual Presentation
Longhorn cattle, mariachi music and the wizardry of video tape will highlight the first annual McDougle/Roberts Sale at the Hill Country Invitational Longhorn Sale in the ballroom in the La Mansion Del Norte Hotel in San Antonio, May 18, at 7 p.m.
Top of the breed longhorn cattle will be featured in the sale, according to sponsors Mel McDougle and John Roberts of San Antonio and premier consignee Don Witt Meisell of Houston. Guest consignors from all of South Texas will also be represented at the sale.
Longhorn sales are not uncommon among cattle breeders in Texas, but audio-visual presentations at the sale are, according to McDougle. The Hill Country Invitational Sale will feature audio-visual presentations on each of the ranchers' cattle breeding operations.
"Most Longhorn breeders know one another but usually aren't familiar with their associated cattle and ranching programs," said McDougle. "This presentation will inform everyone not only about the particular cow for auction but will also shed some light on the breeder's ranching activities."
A preacher in Texas many years ago, when the state was still a frontier, lost every penny of the church funds in a card game. A posse was organized to track him down.
"Gonna lynch him when you find him!" the leader of the posse was asked. "Certainly not," he replied. "We're gonna bring the yamning right back here and make him preach it out."
